Subclause 7.8.3.4

Replace the text of item b) with the following:

substrings, it is TRUE if and only if there is a partitioning of a value of the attribute (into portions) such that:

- the specified substrings (initial, any, final) match different portions of the value in the order of the **strings** sequence;
- initial, if present, matches the first portion of the value;
- final, if present, matches the last portion of the value;
- any, if present, matches some arbitrary portion of the value.

There shall be at most one initial, and at most one final in strings. If initial is present, it shall be the first element of strings. If final is present, it shall be the last element of strings. There shall be zero or more any in strings.
